A publication of the Government Statistical Service

Government Statistical Service

A service of statistical information and advice is provided to the Government by specialist staffs employed in the statistics divisions of individual Departments. Statistics are made generally available through their publications and further information and advice on them can be obtained from the Departments concerned.

The source for further information about series published in this volume is shown at the foot of each table. Current telephone numbers of these sources as well as general information about the *Monthly Digest of Statistics* can be obtained from the Central Statistical Office, Great George Street, London SW1P 3AQ. Telephone 01–930 5422 Ext. 602.

Enquiries about orders and subscriptions should be made to the publisher, Her Majesty's Stationery Office, PO Box 569, London SE1 9NH. Telephone 01–928 6977.

INTRODUCTION

This *Digest* has been prepared by the Central Statistical Office in collaboration with the Statistics Divisions of Government Departments.

The name of the department or organisation providing the statistics is shown under each table. Some of the statistics provided by departments are actually collected by other organisations such as nationalised boards and trade associations. The assistance provided by these organisations, too numerous to mention individually, is gratefully acknowledged.

The figures in the *Digest* are mainly totals for calendar months or monthly averages.

Some of the figures included in this *Digest* are provisional only and may be revised in later issues.

Definitions

A Supplement of Definitions and Explanatory Notes, published with the January issue, gives detailed definitions of all the terms and units used in the *Digest*. The following general definitions should be noted in using the *Digest*:

Area covered. Except where otherwise stated, all statistics relate to the United Kingdom of Great Britain and Northern Ireland.

Units of measurement.

Ton = long ton of 2,240 lb.

Tonne = 1,000 kilogrammes

Gallon = imperial gallon

Consumption and stocks. The terms 'consumption', 'disposals' and 'stocks' are normally defined in detail in the *Supplement* to the *Digest*. Figures of consumption and stocks are seasonal and should be used with caution. The stocks figures given may often relate to only part of the total stocks in the country.

External trade. Owing to differences in coverage and timing, figures of imports and exports are not always comparable with those for production, consumption and stocks.

Symbols and conventions used

Symbols. The following symbols are used throughout:

.. not available
— nil or less than half the final digit shown
* average (or total) of five weeks

Change of basis. A line drawn across a column between two consecutive figures indicates that the figures above and below the line have been compiled on different bases and are not strictly comparable. In each case a footnote explains the difference.

Rounding of figures. In tables where figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy between the sum of the constituent items and the total as shown.

Supplementary table

A supplementary table on the Projected total population of the United Kingdom was published in the June 1973 issue.

Changes in content

Index of industrial production: This issue of the *Digest* contains a supplementary table (pages 158–166) on the index of production which gives a run of monthly figures from January 1968 to December 1971 in the same industry detail as Table 33.

Table 16. Employees in employment: production industries. Figures for the United Kingdom are now included in this table.

Table 30. Family income supplement and attendance allowance. Figures are now shown on a quarterly basis.

Table 34. Output per head.
Table 35. Total home costs and labour costs per unit of output.
Table 36. Wages and salaries per unit of output in manufacturing.
These tables have been re-based on 1970 = 100.

Table 105. Constructional work: value and volume of output. The series have been revised and the volume of output re-based on 1970 = 100.

Table 138. Export and import volume index numbers.
Table 139. Export and import unit value index numbers.
The index numbers have been re-based on 1970 = 100 and consequently those also shown in Table 140 are on the new basis.

Table 173. Index numbers of wholesale prices. The index numbers of New construction and Average value of new dwellings mortgaged by private owners have been re-based on 1970 = 100.

Table 174. Index numbers of agricultural prices. The index has been re-based on the average of 1968/69–1971/72 (July–June years) = 100. For the October issue only, the table shows the old and new bases.

CONTENTS

	Table	Page
I. National income and expenditure		
Expenditure on the gross domestic product	1	4
Factor incomes in the gross national product	2	5
Index numbers of output at constant factor cost	3	6
Personal income, expenditure and saving	4	7
Consumers' expenditure	5	8
Value of physical increase in stocks and work in progress	6	9
Gross domestic fixed capital formation	7	10
Fixed capital expenditure in manufacturing industry	8	12
Fixed capital expenditure in the distributive and service industries	9	13
II. Population and vital statistics		
De facto or home population	10	14
Age distribution of the population	11	14
Births, marriages and deaths registered	12–13	15
III. Labour		
Distribution of working population	14	16
Employees in employment: all industries	15	17
Employees in employment: production industries	16	18
Civil Service: analysis by ministerial responsibilities	17	20
Numbers of workers employed in agriculture	18	21
Constructional work: operatives employed by contractors	19	22
Overtime and short-time worked by operatives in manufacturing industries	20	23
Unemployed	21–26	24
Employed vacancies filled and unfilled	27	28
Industrial stoppages	28	29
IV. Social services		
National insurance and family allowances	29	30
Family income supplement and attendance allowance	30	31
Supplementary benefits: pensions and allowances	31	31
National health service	32	32
V. Production, output and costs		
Index of industrial production	33	33
Output per head	34	36
Indices of home costs and labour costs	35	38
Wages and salaries per unit of output in manufacturing industries	36	38
VI. Agriculture and food		
Agricultural land: area and harvest	37	39
Livestock, pigs and poultry on agricultural holdings	38–39	40
Production, disposals and stocks of principal foods and feedingstuffs	40–48	41
Tobacco	49	47
Alcoholic drinks	50	48
Estimated household food expenditure and consumption in Great Britain	51–52	49
Energy value and nutrient content of the household diet	53	55
VII. Energy		
Inland energy consumption: primary fuel input	54	56
Production and net arrivals of principal fuels	55	57
Inland energy consumption: heat supplied	56	57
Energy consumption by final users	57	58
Coal supply, consumption and stocks	58–60	59
Gas: sources of supply and sendout	61	61
Generation of electricity	62–63	62
Sales of gas and electricity	64	64
Petroleum and petroleum products	65–69	64
VIII. Chemicals		
Fertilizers	70	67
Sulphur and sulphuric acid	71	68
Synthetic dyestuffs, colours, paint and varnish	72	69
Synthetic resins and plastics materials	73	70
Other miscellaneous products	74	70
IX. Metals, engineering and vehicles		
Iron and steel	75–77	71
Non-ferrous metals	78–79	73
Mechanical, instrument and electrical engineering industries: volume index numbers of sales	80	74

		Table	Page
	Mechanical, instrument and electrical engineering industries: volume index numbers of orders on hand and net new orders	81–82	75
	Electrical products	83–85	77
	Radios, radiograms and television sets	86	79
	Vehicles	87–89	79
	Merchant shipbuilding	90–91	82
X.	**Textiles and other manufactures**		
	Textiles	92– 95	84
	Hosiery and footwear	96– 97	86
	Timber and paper	98–101	87
	Rubber and other manufactures	102–104	90
XI.	**Construction**		
	Constructional work: output and new orders	105–106	92
	Permanent housing	107–108	94
	Educational building in Great Britain	109	96
	Building materials and components	110	98
XII.	**Transport**		
	Road and rail transport	111–117	99
	Civil aviation	118	104
	Merchant shipping	119	106
	Passenger movement by sea and air	120–121	106
XIII.	**Retailing and catering**		
	Index numbers of retail sales and stocks in Great Britain	122	108
	Index numbers of turnover in the catering trades	123	109
XIV.	**External trade**		
	Analysis by commodity classes	124–127	110
	Analysis by areas and countries	128–130	114
	Exports and imports of selected commodities	131–137	120
	Export and import volume and unit value index numbers	138–139	124
	Visible trade: value and volume	140–141	126
XV.	**Overseas finance**		
	Balance of payments	142–144	127
	Official reserves and United Kingdom official short and medium-term borrowing	145	128
XVI.	**Home finance**		
	Consolidated Fund and National Loans Fund	146–147	129
	Central government Net balance	148	130
	Inland Revenue	149	131
	Customs and Excise duties	150	131
	Bank of England	151	132
	Deposit banks, accepting houses, overseas and other banks in the United Kingdom	152	133
	London clearing banks	153	134
	Bank clearings and currency circulation	154	135
	Bank advances	155	136
	Capital issues and redemptions	156	138
	Money stock and domestic credit expansion	157	139
	Reserve and public sector lending ratios	158	139
	Discount market	159	140
	Hire purchase and other instalment credit	160	140
	National savings	161	141
	Security prices and yields	162	142
	Bank rate and minimum lending rate	163	142
XVII.	**Wages and prices**		
	Average earnings and hours of work of manual workers	164–165	143
	Index of average earnings of all employees	166	144
	Average weekly earnings of manual workers	167	146
	Indices of wages rates and normal hours of work of manual workers	168–169	147
	Changes in basic weekly rates of manual workers	170	149
	General index of retail prices	171–172	150
	Index numbers of wholesale prices	173	152
	Index numbers of agricultural prices	174	154
XVIII.	**Entertainment**		
	Broadcast receiving licenses, cinemas and gramophone records	175	156
XIX.	**Weather**		
	Temperature, rainfall and sunshine	176	157

(1) Equals total final expenditure on goods and services at market prices *less* imports of goods and services *less* taxes on expenditure *plus* subsidies. Estimates of the gross domestic product at constant factor cost based on statistics of output are given in Table 3. (2) This represents taxes on expenditure *less* subsidies valued at constant rates.

(1) Estimates for 1962–70 have been revised in the light of the preliminary results of the 1971 Census. Figures for England and Wales for 1971 and 1972 have been revised and are based on the final results of the 1971 Census.

(2) The mid-year estimates for 1971 and 1972 for Northern Ireland are based on preliminary figures and final (provisional) figures of the 1971 Census respectively. They are not comparable with the estimates for the period 1961–70, which were linked to the 1961 and 1966 Censuses.

(1) Estimates for June 1969(a) are classified according to the Standard Industrial Classification 1958 and are not fully comparable therefore with the estimates for June 1969(b) which are classified on the basis of the Standard Industrial Classification 1968.
(2) See footnote (1) to Table 16.
(3) The industries included in the index of production are Orders II-XVIII of the Standard Industrial Classification 1958 and Orders II-XXI of the Standard Industrial Classification 1968.
(4) Excluding private domestic service.
(5) The estimates of agriculture are taken from the June censuses of agriculture and exclude a small number of employees of agricultural machinery contractors. It should also be noted that the figures include seasonal and temporary workers.

(1) (a) Until 1971 the annual employment statistics were derived mainly from counts of national insurance cards. In 1971 a new system was introduced because of proposals to abolish the use of national insurance cards for employees within the next few years.

(b) The new system relies on returns from employers. In order to provide a link between the old system and the new system, both a card count and a census under the new system were taken in 1971. Only a census was taken in June 1972. The results of the census in 1971 have been reprocessed to provide a basis for comparison with 1972.

(c) The old count of national insurance cards included many employees who work for part of the year only and who would not have been in employment in the particular week in June when the census was taken. Mainly for this reason the census figure for June 1971 is considerably lower than the card count. Another difference is that a person who had two regular jobs with different employers in the week of the census was counted twice in the census but only once in the card count, so that the census figures are higher than the card count in some industries and services where secondary employment is common.

Note: Figures have been rounded independently, thus there may be an apparent slight discrepancy between the sum of the constituent items and the total.

Source: Civil Service Department

(1) The figures include established and unestablished non-industrial and industrial staff but exclude casual or seasonal staff (recruited for periods of normally less than six months) and employees of the Northern Ireland Government. Two part-time employees are counted as one whole-time employee.

(2) The figures prior to 1 July 1972 have been adjusted to show staff in current Ministerial areas so that the figures in all columns are on a comparable basis.

(3) Excluding headquarters staff, but including research and development establishments and Royal Ordnance factories.

(4) These figures include estimated breakdown of certain staff recently transferred to Ministry of Defence and may be subject to later amendment.

Sources: Agricultural Departments

(1) The numbers of workers returned from June 1970 onwards are not comparable with those returned in previous years because of changes in the census in the coverage of labour in England and Wales. These changes comprised:
- (a) extending the concept of farm work to include managerial and secretarial work;
- (b) requesting for the first time the separate return of farmers, partners and directors; and
- (c) defining, from 1970 to 1972 'regular whole-time' workers as those engaged in work on the holding for 40 hours or more per week and 'regular part-time' as those engaged for less than 40 hours per week.

(2) Includes family workers but excludes farmers' wives.

(3) Including regular part-time workers.

Constructional work: operatives employed by contractors(1)

Note: This table has been revised and is now based on information from the Census of Employment (see footnote (1) to Table 16). The estimates are not comparable with estimates prior to June 1971 which were based on mid-year counts of national insurance cards.

(1) Orders III–XIX of the Standard Industrial Classification 1968.

(2) Figures relate to establishments with more than 10 employees in all manufacturing industries except shipbuilding and ship repairing.

(3) Excluding maintenance staff.

(4) Operatives stood off for the whole week are assumed to have been on short-time to the extent of 40 hours each.

(5) In February 1972, the volume of overtime and short-time was affected by the power crisis.

(6) Figures after June 1972 are provisional and are subject to revision when the results of the 1973 Census of Employment are available.

Note: The presentation of unemployment statistics in this and succeeding tables has been revised on the lines recommended by an Inter-Departmental Working Party *Unemployment Statistics* (Cmnd. 5157). See *Department of Employment Gazette*, November 1972.

(1) The figures in this table are adjusted to take into account amendments notified on the four days following the date of the count. Figures for married females from May 1972 onwards are not adjusted.

(2) Total in preceding column expressed as a percentage of the estimated total number of employees.

(3) The method of seasonal adjustment is described in the *Department of Employment Gazette*, August 1972 and details of the latest revisions are published in the March 1973 issue (News and Notes).

(1) Including ex-service men and women and other unemployed persons aged 18 years and over not classified to an industry. Unemployed school-leavers (i.e. persons under 18 not in full-time education who have not yet taken up employment) and adult students seeking temporary employment during vacation are excluded. The All industries figures are adjusted to take into account amendments notified on the four days following the date of the count. All other figures from May 1972 are not so adjusted.

(2) Total in the preceding column expressed as a percentage of the estimated total number of employees.

(3) The method of seasonal adjustment is described in the *Department of Employment Gazette*, August 1972, and details of the latest revisions are published in the March 1973 issue (News and Notes).

(1) The total unemployment is adjusted to take into account amendments notified on the four days following the date of the count. The analyses by duration from May 1972 onwards are not adjusted. Prior to May 1972, casuals were excluded from this analysis. See *Department of Employment Gazette*, June 1972.

(1) Excludes stoppages involving fewer than 10 workers or lasting less than one day except any in which the total number of working days lost exceeded 100. The figures for 1973 are provisional.
(2) From January 1970 the analysis by industries is based on the Standard Industrial Classification 1968. Figures prior to that date are based on the Standard Industrial Classification 1958.
(3) Where stoppages extend over more than one month, the workers involved are counted in the month in which they first participated.
(4) The figures of working days lost relate to the total working days lost within each of the periods shown as a result of stoppages *in progress* in that period, whether the stoppages began in that period or earlier.

(1) Figures for individual months are averages of the four or five weeks ending on the last Tuesday of each month.
(2) Invalidity benefit was introduced on 23 September 1971. (3) Including prescribed industrial disease.
(4) Excluding claims made under the emergency benefit procedure. Figures for individual months are averages of the four or five weeks starting on the first Monday of each month.
(5) These figures include substantial numbers of persons who have been sick for a long time and who may no longer be in employment.
(6) Up to June 1971, these estimates are based on a standing sample of claimants. Subsequent figures are provisional estimates derived from the numbers of new claims and will be replaced later by final estimates from the sample. Yearly figures are averages of twelve monthly figures.
(7) Yearly figures are averages of quarterly figures. Quarterly figures relate to the first Monday in February, May, August and November.
(8) Including pensioners in receipt of Old person's retirement pension awarded under National Insurance Acts 1970 and 1971.
(9) Including a diminishing number of widows with pensions of 30s a week derived from the old Contributory Pensions Acts. (10) Figures for 1973 are provisional.
(11) Including the elder or eldest child for whom no allowance is payable.
* Average of five weeks.

(1) Pension age means 65 years for men and 60 years for women.
(2) Some of the supplementary pensions provide for the requirements of a household with more than one pensioner.
(3) Includes a small number of persons over pension age.
(4) The quarterly count of Supplementary benefit recipients was not conducted for that month.

(1) For a description of this series, see the article on page 360 of the April 1971 issue of *Department of Employment Gazette*.
(2) Quarterly estimates are derived as averages of the monthly figures.
(3) In the absence of an earnings index for February 1972 due to the effects of the coalmining dispute no index of wages and salaries per unit of output has been calculated for that month. Less reliance than usual can be placed on the latter index for January and March 1972.

Sources: Agricultural Departments

(1) Excluding agricultural holdings of one acre or less in extent in Great Britain until 1969. With effect from June 1970 the census was extended in Great Britain to cover all holdings with significant output including those on one acre of agricultural land or less, at the same time about 16,000 holdings in Scotland with negligible output were excluded from the census. In Northern Ireland excluding holdings of less than one acre until 1972 but numbers of livestock in Northern Ireland were collected from all owners (including landless stockholders). As from June 1973 about 8,000 statistically insignificant holdings were excluded from the census in Northern Ireland. At the same time some 2,000 statistically significant holdings with less than one acre of land were brought fully into the census: previously these were included in the census only to the extent of obtaining an estimate of the numbers of livestock on them. (2) Excludes Scotland. (3) Includes maize for threshing in England and Wales. (4) Weight in pods. (5) Shelled weight. (6) England and Wales only. (7) Clover and rotation grasses including lucerne in England and Wales. (8) Production figures relate to hay only. The production of hay in England and Wales is calculated from the area cut for hay and actually harvested and does not include the area mown for silage, drying or seed: the production of hay in Scotland and Northern Ireland is calculated from the area cut for hay only and does not include grass mown for silage or drying. (9) Includes hay from lucerne in England and Wales and from permanent grass in Scotland. (10) Includes the total area of deer forest land in Scotland.

(1) A small quantity of molasses spirit is used in beverage spirit production. See explanatory notes in the *Supplement* to Table 74. (2) The sub-headings indicate the description of the spirits at the time of duty payment. (3) The sub-division distinguishes between wine imported in bottles and wine imported otherwise (for example, in casks). (4) Provisional.

(1) From January 1971, figures relate to sales by manufacturers in Great Britain employing 25 or more persons, and who are classified to MLH 274 (paint). The figures also include sales of principal products of this industry by establishments classified to MLH 271 (general chemicals) and MLH 494/1 and 2 (toys, games and children's carriages).
From third quarter 1971, the figures relate to sales by manufacturers in the United Kingdom.

(1) Industrial ethyl alcohol is distilled from molasses or derived from other processes: the current usings of molasses spirit in beverage spirit production are believed to be comparable with the usings in the preceding financial year – see explanatory notes.

(2) From July 1971 figures relate to sales by manufacturers in the United Kingdom employing 25 or more persons and who are classified as MLH 275 (soap and detergents). The figures also include sales of synthetic detergents by establishments classified to MLH 271 (general chemicals), MLH 272 (pharmaceutical chemicals and preparations) and MLH 279/1 (polishes).

(3) A short standard is 7,200 matches.

(1) At steel works and steel foundries. (2) At steel works, steel foundries and blast furnaces.
(3) Stocks at producers' works of ingots, semi-finished and finished steel in terms of ingot equivalent. From March 1970 and March 1973 the figures are revised due to re-measurement.
(4) From January 1971, figures include stock of semi-finished steel for the manufacture of heavy products previously not reported.
(5) The figures for 1970 onwards include deliveries of welded tubes over 16 inch outer diameter.
(6) 53 week period. (7) Average of fourteen weeks.
* Average of five weeks.

NOTE: Tables showing detailed information about the mechanical, instrument and electrical engineering industries up to the end of 1971 last appeared in the March 1973 issue of the *Monthly Digest* (Tables 78-83). It is proposed to re-introduce similar tables later in 1973 when information collected under the new system of industrial statistics is available.

September													

(1) Including chassis delivered as such by manufacturers. The value of deliveries of commercial vehicles is shown in Table 88.

(2) Beginning in 1973 the headings under which data are collected were changed. The new heading of Car derivatives (i.e. vans derived from car chassis) has virtually the same coverage as the heading it replaced, Commercial vehicles not over 1½ tons. Although not all commercial vehicles under 1½ tons gross vehicle weight are classed as car derivatives and it is also possible for car derivatives to exceed 1½ tons gross vehicle weight, the difference between the two categories is small as far as UK production is concerned. The series as given may therefore be regarded as sufficiently continuous for the analysis of trends. The combination of the two series, car derivatives and commercial vehicles under 10 tons gross vehicle weight is identical in coverage with the sum of the two series that have been superseded.

(3) Complete and chassis. (4) 53 week period. * Five week period.

(1) Includes naval vessels registered as merchant ships.
(2) Gross tonnage (100 cubic feet per g.t.) is the total volume of all the enclosed spaces of a vessel.
(3) The total tonnage specified on ordering vessels differs slightly from the total actual measured tonnage on completion.
(4) Vessels are shown for export if they are for other than UK registration.
(5) Modifications include alterations of 500 gross tons or more to the tonnage and the country of registration of vessels already on order.
(6) Modifications and cancellations exceed new orders for the period.

(1) Includes naval vessels registered as merchant ships.
(2) Gross tonnage (100 cubic feet per g.t.) is the total volume of all the enclosed spaces of a vessel.
(3) The total tonnage specified on ordering vessels differs slightly from total actual measured tonnage on completion.
(4) Vessels are shown for export if they are for other than UK registration.
(5) Modifications include alterations of 500 gross tons or more to the tonnage and the country of registration of vessels already on order.
(6) Modifications and cancellations exceed new orders for the period.

(1) Spinning, doubling processing and weaving parts of the cotton industry, *plus* man-made fibre, wool, carpets and hosiery industries. (2) These indices have been adjusted to allow for the differences in the lengths of calendar months but not for holidays or for other seasonal variations. (3) The index numbers for individual sectors relate to the total output of manufacturers whose main business is in that sector of the industry and not output of that particular type of garment.

(1) The coverage of the inquiry from which this table is compiled was extended at the end of 1970 and the earlier figures have been adjusted to provide a broadly comparable series. It must be emphasised, however, that the conversions have been based on linking factors spanning the 4th quarter 1970 and 1st quarter 1971 only and they should be treated with caution.
(2) Includes sports shoes with uppers of materials other than leather and single texture plimsolls and sand shoes.

(1) From the 3rd quarter 1971 information was collected on a slightly different basis; the figures, therefore, are not fully comparable with those for earlier periods. A link between the two sets of figures is shown in the March 1972 edition of *Business Monitor*, P. 9, Carpets.
(2) Prior to the 3rd quarter 1971 these figures relate to woven carpets faced with more than 50 per cent of man-made fibres.
(3) Prior to the 3rd quarter 1971 export figures are those reported directly by manufacturers. From that date they are those recorded in the *Overseas Trade Statistics*.

(1) Excluding building which is wholly financed from private sources. (2) From January 1960 for Scotland and from April 1960 for England and Wales the cost of school meals projects has not been separately recorded. The value of such projects, shown separately for the years 1946 to 1959 in previous tables of educational building, has been included as appropriate under the headings Primary and secondary and Special schools. (3) Figures for England and Wales include the value of projects for which specific approval is not required. (4) Totals for England and Wales include the value of certain projects for which no analysis between type of project is available. As from October 1961, the individual value of such projects is less than £2,000. (5) Figures for England and Wales relate to project values and those for Scotland to contract values. Figures for Scotland include the cost of certain minor projects for which specific approval is not required. (6) The Scottish figures of projects approved refer to approval at the sketch plan stage, which might be some six to twelve months before the start of construction. (7) The Scottish figures of Under construction and Completions are based on the tender costs. The Under construction and Completions figures exclude the value of approved school projects which in 1969 amounted to £1,246,000 and £406,000 respectively.

(1) The method of calculation of the number of new places provided differs in England and Wales and Scotland. In England and Wales the figures refer to the number of pupils for which new school accommodation is designed. In Scotland the figures refer to the sum of the approved capacities of all the teaching rooms whether classrooms or practical rooms, and will normally exceed the number of pupils for which accommodation is designed.
(2) Including new schools brought into partial use before completion.
(3) Extensions, alterations, remodelling and war damage repairs.

(1) Passenger journey figures for 1969 and subsequent years are not strictly comparable with those for previous years, owing to the transfer from British Rail to London Transport railways of the Bow to Upminster line on 1 January 1969 and of the London Paddington to Westbourne Park service on 1 January 1970. In addition, the new 14 mile Victoria Line was opened to traffic by London Transport in four stages on 1 September and 1 December 1968, 7 March 1969 and 23 July 1971. (2) The four-weekly averages for each year are computed from calendar year totals.

(1) The four-weekly averages for each year are computed from calendar year totals.
(2) Freight train traffic only.
(3) From January 1969, figures do not include freight carried on behalf of National Carriers Ltd. and Freightliners Ltd.
(4) From January 1972, four-weekly figures of net ton mileage are estimated.

(1) Scheduled services only. All kilometre statistics are based on standard (Great Circle) distances.
(2) Slight discrepancies between certain totals and the sum of their constituent items are attributable to the rounding of figures.
(3) Including weight of vehicles uplifted on vehicle ferry services, mail, excess baggage and diplomatic bags.

(1) The retail sales series are now rebased on the final results of the Census of Distribution for 1966.
(2) The indices for all shops, food shops and total non-food shops are shown to the first decimal place to help interpretation, but should not be regarded as necessarily accurate to the final digit.
(3) Including co-operative societies' bakery departments. (4) Excluding co-operative societies' bakery departments. (5) Sales by co-operative societies of durable goods and ironmongery and hardware are included in total sales by durable goods shops. (6) Including radio and cycle and perambulator shops. *Average of five weeks.

(1) Statistics of visible trade on a balance of payments basis are obtained by making certain adjustments in respect of valuation and coverage to the statistics recorded in the *Overseas Trade Statistics*. These adjustments are summarised in Table 141 below; they are described in detail in *United Kingdom Balance of Payments 1972*.

(2) Export unit value index as a percentage of the import unit value index. (3) Affected by the dock strike. (4) Provisional.

(1) The total currency flow, together with Allocation of Special Drawing Rights and Gold subscription to the IMF. (2) From July 1972 transactions with IMF affecting the United Kingdom reserve position in the Fund are included as changes in the official reserves. (3) From 23 August 1971, valued in sterling at transactions rates of exchange. Therefore, from the third quarter of 1971 the sterling valuation of the flow does not equal the difference between the opening and closing levels which are converted at parity in Table 145.

(1) Figures are calculated to end-September 1971 at $2.40=£1, from end-December 1971 to end-January 1973 at $2.6057=£1 and from end-February 1973 at $2·89524=£1. (2) Drawings from the IMF, net of repayments by the United Kingdom and drawings of sterling from the IMF by other countries. From July 1972 excludes transactions affecting the United Kingdom gold tranche. (3) Borrowing from other monetary authorities, and a consortium of Swiss banks in 1967, in the form of foreign currency deposits or assistance with a sterling counterpart. (4) From July 1972, the official reserves were redefined to include the reserve position in the IMF. From end-April to end-June 1972, this stood at £292 million.

(1) In addition to its lending, the National Loans Fund meets the interest and management charges of the National Debt. To the extent that these charges are not matched by interest received on its own lending and by profits of the Issue Department of the Bank of England, the Consolidated Fund meets the difference. The surplus on the Consolidated Fund is paid to the Fund, leaving the difference between that and its net lending as the Fund's financing requirement. (2) Loans under the Ship Credit Scheme and to the Shipbuilding Industry Board, housing associations and building societies. (3) Loans to Votes for US military aircraft, Town and Country Planning compensation, Redundancy Fund and lending to Northern Ireland Exchequer.

(1) This is equal to Exchequer borrowing and special transactions (net) *less* receipts from extra-Exchequer funds, etc. It is also equal to the amount the central government borrows *less* any increase (or *plus* any decrease) in its official reserves.
(2) A negative item represents a surplus, a positive item a deficit.
(3) Including in March of each year transfer of surplus of the death duties surrendered securities account.
(4) The cumulative monthly figures do not agree precisely with the quarterly figures because of adjustments, incorporated in the latter, for accrued interest on National Savings and for issued coin.
(5) Excluding borrowing from the National Loans Fund.
(6) Including surrender of final balance on the local loans fund.
(7) Adjustment for redemption of government guaranteed stock.
(8) Consolidated Fund liability for service of the National Debt: balance carried over until March.

(1) Including receipts from the 10 per cent regulator on most Customs and Excise duties and on purchase tax, operative (i) from 21 July 1966 to 11 April 1967 and (ii) from 23 November 1968 to 16 April 1969 (2) The figures given do not include receipts from Northern Ireland, as the duties apply only in Great Britain. Separate duties on betting have been imposed by the Government of Northern Ireland. (3) Includes arrears in respect of earlier years. (4) Provisional.

(1) Including government debt £11·0 million. (2) Other securities, coin and until 6 August 1970, gold coin and bullion. (3) Including Capital £14·6 million. (4) Until 15 September 1971 deposits called from the London and Scottish clearing banks, not at their free disposal. Thereafter deposits called from all banks, not at their free disposal. (5) Before 18 August 1971 Other accounts and rest. (6) Certain changes in the composition of these accounts were made from 28 February 1971 reflecting certain changes in the treatment of reserves. Following the publication on 28 July 1971 of the Bank's Report and Accounts certain other minor changes were made mainly affecting the titles of accounts. See footnotes (5), (7), (8) and (9). For full details see the Additional Notes to Table 5 in the *Bank of England Quarterly Bulletin*. (7) Before 18 August 1971 Discounts and advances. (8) Before 18 August 1971 Other securities. (9) With effect from 29 July 1971 Treasury bills discounted for customers were incorporated in Government securities instead of in Discounts and Advances.

(1) Figures are not strictly comparable throughout owing to changes in the composition of the clearings. From 12 January 1968 provincial clearings, with the exception of the afternoon clearing at Liverpool, were abolished and transferred to General clearing. From 1 July 1969 all figures are worked on a 5 day week.

(2) Average of Wednesdays. Includes Bank of England notes held by the Scottish and Northern Ireland Banks as cover for their note issues in excess of the authorised circulation.

(3) Months: average of Saturdays in the consecutive four-week periods as published in *The London Gazette* or in *The Belfast Gazette*, with as close a correspondence as possible to the calendar months. Years: average of the thirteen published figures.

(4) Excluding coin in the Bank of England, Issue Department.

(5) Total notes and coin outstanding, *less* notes and coin held by the Bank of England, Banking Department, and by the London clearing banks, Scottish banks and Northern Ireland banks.

(6) The values of Town, General and Credit clearings were reduced as a result of mergers among the London clearing banks. The changes occurred in December 1969 and January 1970 and to a lesser extent in September 1970; their total effect is estimated to have been: Town clearing —8%, General clearing —10%, Credit clearing —11%.

(7) From 20 January until 8 March the figures are affected by a strike of Post Office employees.

(8) Credit clearings. Not comparable with earlier figures owing to the exclusion of credit transfers processed by Bankers' Automated Clearing Services.

(1) The annual figures are averages of the figures for February, May, August and November.
(2) Included in Other manufacturing in Northern Ireland.
(3) Excluding funds placed through the specialised financial markets.
(4) The average for 1972 is derived by adding to February figures that amount of fixed rate credits transferred from Bills to Advances in May 1972.

(5) The two sets of figures show the position before and after the inclusion of £734 million fixed rate credits for exports and domestic shipbuilding (London clearing banks £697 million, Scottish clearing banks £37 million) previously included in Bills discounted prior to May 1972.

(6) Because of difficulties of classification it is not possible to include advances made by the six finance houses recognised or confirmed as banks in January 1972 or January 1973. These totalled £1,711 at mid-May and £1,894 at mid-August.

(7) Figures for May, August and November 1970 are not available due to the effects of an industrial dispute involving bank employees.

(1) Excluding securities of the British government and nationalised industries.
(2) The figures have been revised to exclude estimates of the subscriptions arranged by United Kingdom sponsors to international issues.
(3) The estimates include United Kingdom local authority negotiable bonds (of not less than one year) issued to or through the agency of banks, discount houses, issuing houses or brokers.

(1) The addition of banks in Northern Ireland increase Eligible liabilities by £354 million and Reserve assets by £65 million.
(2) One former finance house was classified as a bank from April 1973.
(3) Figures for August 15 and subsequently are not available on a basis comparable with those for earlier months.
(4) New arrangements for the application of credit control to the discount market were described in the *Bank of England Quarterly Bulletin*, September 1973.

(1) Direct business only: i.e. excluding agreements block discounted with finance houses by retailers. The seasonal adjustments have been revised from 1971 onwards in the light of subsequent experience.
(2) Durable goods shops, departmental stores, other general stores, general mail order houses and co-operative societies non-durable goods departments. This series is now rebased on the final results of the Census of Distribution for 1966.

(1) Derived from yield-maturity curves fitted mathematically. The break shows a change in the method: an article in the *Bank of England Quarterly Bulletin* December 1972 describes the new method of calculating the curve which is now based on the prices and coupons for all stocks except a few with special features. Before 1971, the curve was fitted to yields on stocks with coupons of 5 per cent or more. (The old method was described in the March 1967 *Bulletin*). The yearly figures are averages of end of month yields. The monthly figures relate to averages of Wednesdays, except for 1971, where they are for end-months. Figures have been revised from January 1973. See article in the *Bank of England Quarterly Bulletin* September 1973.
(2) Average of working days, based on the mean of the middle opening and middle closing prices each day, excluding gross accrued interest; tax is ignored. (3) Averages of daily figures calculated from middle market closing prices. (4) Gross redemption yields of 15 stocks so combined as to give a yield average for a constant 20-year term.

(1) The figures represent the average earnings, including bonus, overtime, etc., and before deduction of income tax or insurance contributions, in one week in the months indicated. Administrative and clerical workers and other salaried persons have been excluded. Certain qualifications are given in a full account of the enquiry relating to October 1972, published in the *Department of Employment Gazette* for February 1973.

(2) From and including October 1967 includes (a) dock workers previously on daily or half daily engagements and (b) postmen.

(3) This index relates only to the industries covered by the earnings enquiry. It should not be confused with the figures in Table 169 which cover all industries.

September														

(1) England and Wales only. (2) Except sea transport and postal services. (3) Consisting of laundries and dry cleaning, motor repairers and garages and the repair of boots and shoes. (4) For notes on the index classified according to Standard Industrial Classification 1968, see pages 470–471 of the *Employment and Productivity Gazette* for May 1970. (5) Because of the coal mining dispute a reliable index for Mining and quarrying cannot be calculated. The December 1971 figures for coal mining have been used in the compilation of the index for All industries and services covered, and for the Mining and quarrying 1972 annual average.

Sept.													

(6) As industrial activity was severely disrupted by restricted electricity supplies the monthly survey was not carried out in February so figures cannot be calculated for this month. (7) Provisional. (8) Insufficient information is available to enable a reliable index for Agriculture to be calculated for the current month but the best possible estimate has been used in the compilation of the index for All industries and services covered.

(1) The figures are based upon changes in basic rates of wages or minimum entitlements and reductions in normal weekly hours, which are normally determined by national collective agreements or statutory wages regulation orders. The information relates to the end of the month and, where necessary, the figures may be revised to take account of any changes having retrospective effect or reported belatedly. A brief note on the method of compilation of the figures is given in the current issue of the *Department of Employment Gazette*.

(2) In general, males under 21 and females under 18 years of age.

(3) The term Manufacturing industries covers all industries included in Orders III–XIX of the Standard Industrial Classification 1968.

(1) The figures relate to changes in basic full-time weekly rates of wages or minimum entitlements and do not reflect reductions in normal weekly hours without loss of pay or variations in actual earnings arising from such factors as overtime or lost time. The changes included are those determined by national collective agreements or by statutory wages councils or boards.

(2) The monthly totals in the columns headed Increase and Decrease relate to the number of workpeople affected by changes and the corresponding gross amounts. Workpeople affected by two or more changes are counted only once in the annual totals which relate to the number having increases only or for whom increases exceeded decreases, the number having decreases only or for whom decreases exceeded increases, and the corresponding net amounts; the column headed Net increases, is therefore the overall net increase for the year.

(3) The annual totals of net increases in basic weekly rates of wages mean that the total wage bill of the country, in the industries and for the workpeople covered by the statistics, for a full ordinary week's work at basic rates of wages at the end of any one year exceeds that for the corresponding week of the preceding year by the amount stated. The average weekly wages paid during any one year will not, however, exceed those paid during the preceding year by this sum, as the actual changes will have taken place at various dates during the year.

(1) The Cost of Living Advisory Committee (now renamed the Retail Prices Index Advisory Committee) recommended in 1962 that until a satisfactory index series based on actual prices became available half the expenditure on meals out should continue to be allocated to the food group and the other half spread proportionately over all groups, including the food group. The index for meals out for 16 January 1968 implicit in this recommendation was 121·4. Since January 1968 an index series based on actual prices has been available and indices in this series have been linked with the implicit index for meals out for 16 January 1968, to obtain indices for meals out with 16 January 1962 taken as 100.

(2) These are the weights which would have been used in 1968 if expenditure on meals out had been treated as in previous years (see footnote (1)). The weights actually used are given in the following line.

(1) From July 1971, revised method of calculation to include levies on certain imported food materials.
(2) Index of building costs: figures relate to average for the quarter.
(3) The index covers only dwellings on which building societies have advanced mortgages during the period. The cost of land is included.

(4) Reductions in the VAT-exclusive prices of alcoholic liquor, tobacco and cigarettes, matches and mechanical lighters took place in April. These reductions resulted from lower revenue duties designed to offset additional tax revenue from VAT. With unchanged prices in April for these products index numbers for months from April onwards would have been higher by the following: all manufactured products 1·7; chemicals and allied industries 0·2; products of manufacturing industries other than food, drink and tobacco and engineering and allied industries by less than 0·05

(5) Provisional.

(1) Based on manufacturers' list prices.
(2) The market-price series are based on prices before the addition of subsidies when paid to producers under the Cereals Deficiency Payments Scheme and Fatstock Guarantee Scheme.
(3) The gross-price series for wheat, cattle and pigs are based on prices after the addition of subsidies when paid to producers; that for milk on prices paid to producers by the marketing board and that for potatoes on producer prices, sometimes supported by the Potato Marketing Board.
(4) Maincrop potatoes only.
(5) Based on guaranteed minimum prices to producers at packing station until March 1966, then to March 1970 on BEMB prices to producers under the Egg Contract Schemes. From April 1970 until March 1971 minimum producers prices as in years prior to March 1966. Thereafter based on average price paid to producers at packing stations.
(6) Based on net prices to farmers after deduction of subsidy.

CENTRAL STATISTICAL OFFICE

National Income and Expenditure 1973

The *National Income and Expenditure* Blue Book, prepared by the Central Statistical Office, contains detailed estimates of national product, income and expenditure for the United Kingdom. The 1973 edition covers mainly the years 1962–1972. Information is included on personal income and expenditure, company income and its appropriation, public corporations, central government and local authorities, investment, output and expenditure at constant prices and other subjects. A detailed description of the compilation of the estimates is given in *National Accounts Statistics: Sources and Methods*, prepared by the Central Statistical Office (Studies in Official Statistics, No. 13).

United Kingdom Balance of Payments 1973

This publication (the Pink Book), prepared by the Central Statistical Office, is designed to be a standard reference for balance of payments statistics extending over a long run of years up to 1972. It contains tables showing the general balance of payments accounts for the United Kingdom together with a detailed analysis of many of the items included. These tables are followed by an Annex covering six topics illustrating certain aspects of the balance of payments which do not emerge from the standard form of presentation. The Pink Book also includes a detailed description of the definitions, sources and methods employed in compiling the figures, notes on the reliability of the estimates and references to the main international publications giving balance of payments statistics for other countries.
